

With Silverman, yours is
not just another jewelry sale...

Since 1945, Silverman Consultants has offered sales strategy and direction to jewelry store owners across the country. We've built our reputation on successfully turning around a business, selling off inventory, or liquidating an entire store. We have worked with large chains and small family-owned businesses, and know that each situation has its own set of circumstances.

Recognizing that each store has its own identity and market conditions, we work with owners to develop a custom approach. We apply proven strategies to maximize revenue in times of transition, whether due to retirement, store closing, or a desire to boost sales. We know how much you value your business and reputation, and we make it our business to guard them... just as we've protected ours for 65 years and counting.
